PROFESSIONAL SUMMARY

Product-minded professional with hands-on experience in website & app operations, digital marketing, and D2C e-commerce, gained within the Product Growth team at Mamaearth (Honasa Consumer), a leading D2C beauty and personal care brand. Skilled in translating growth goals into operational execution across web and app platforms, using data from GA4, Firebase, Power BI, AppsFlyer, and MoEngage to inform product and marketing decisions. Comfortable working across CRM, lifecycle marketing, e-commerce platforms (Magento, Shopify, Strapi), and cross-functional teams spanning product, marketing, and engineering. Complemented by technical grounding from a current role as a Cloud Engineer at LTIMindtree, bringing a structured, analytical approach to product and growth problem-solving.

SKILLS

Product & Growth: Product Growth, D2C E-Commerce, Website & App Operations, Funnel & Conversion Optimization, User Experience, Cross-Functional Collaboration

Digital Marketing & CRM: CRM Operations, Lifecycle Marketing, MoEngage, AppsFlyer, Digital Marketing, Customer Engagement & Retention

Analytics & Insights: Power BI, Google Analytics (GA4), Firebase, Data-Driven Decision Making

E-Commerce & Web Platforms: Magento, Shopify, Strapi, HTML, CSS

Cloud & Technical: Microsoft Azure, Cloud Infrastructure, VMware, Networking, Incident Management, C++

RELEVANT EXPERIENCE — PRODUCT, GROWTH & DIGITAL MARKETING

Website & App Operations Intern — Product Growth Team, Mamaearth (Honasa Consumer Ltd.) Aug 2024 – Jan 2025

D2C Beauty & Personal Care Brand | Hyderabad, India

- Contributed to product growth initiatives for Mamaearth's D2C e-commerce platform, supporting website and app feature rollouts, usability improvements, and site/app performance optimization.
- Independently owned improvements to the company's homepage and mobile app experience, working closely with product, design, and engineering to ship changes that enhanced user experience and conversion.
- Tracked and analyzed product and growth metrics (traffic, engagement, conversion) using Power BI, Google Analytics (GA4), and Firebase to generate actionable insights for stakeholders.
- Supported CRM and lifecycle marketing initiatives via MoEngage and AppsFlyer to improve customer engagement, retention, and campaign performance across the app and website.
- Worked across Magento, Shopify, and Strapi to manage content, catalog, and e-commerce operations for a high-traffic D2C brand.
- Partnered daily with cross-functional teams — product, growth, marketing, and engineering — to translate business goals into operational execution and drive continuous improvement.

ADDITIONAL EXPERIENCE

Cloud Engineer — Microsoft Azure Project, LTIMindtree

Feb 2025 – Present

Hyderabad, India

- Support Microsoft Azure enterprise infrastructure and cloud operations, including incident management, troubleshooting, and cross-functional coordination — experience that brings a structured, analytical approach to product and growth work.
