

CHEKONDA ALEX NITIN

Azure Cloud Engineer | Cloud Capacity & Incident Management | Immediately Available

Hyderabad, Telangana, India | +91 8328086697 | chekondaalexnitin@gmail.com

LinkedIn: linkedin.com/in/alexnitin | GitHub: github.com/chekonda

PROFESSIONAL SUMMARY

Immediately available Azure Cloud Engineer with hands-on experience in Azure Compute capacity management and incident resolution for enterprise customers on Microsoft's Global Capacity Team at LTIMindtree. Skilled in VM allocation troubleshooting, quota management, root cause analysis, and SLA driven incident management across Resource Groups, VM Scale Sets, and Availability Zones. Working knowledge of core networking (DNS, DHCP, TCP/IP) and virtualization concepts. Microsoft Certified in Azure Fundamentals, with a B.Tech in Computer Science and Engineering. Prior experience in digital product and website operations for a high traffic D2C ecommerce platform adds a practical understanding of end to end system performance.

TECHNICAL SKILLS

Azure Cloud & Capacity Management: Microsoft Azure, Azure Compute, Azure Portal, VM Scale Sets, Availability Sets, Availability Zones, Resource Groups, Proximity Placement Groups, Quota Management, Capacity Management, Allocation Troubleshooting

Incident & Operations: Incident Management (ICM), RDQ Management, Root Cause Analysis, SLA Management, ITSM and Ticketing Workflows, Cluster Operations (ECR, Defrag, OFR)

Networking & Infrastructure Knowledge: DNS, DHCP, TCP/IP, VMware Virtualization Concepts, Windows Server, Office 365

Analytics & Digital Operations (prior role): Power BI, Google Analytics (GA4), Firebase, AppsFlyer, MoEngage, CRM Operations, Magento, Shopify, Strapi

Programming & Web: HTML, CSS, C++

PROFESSIONAL EXPERIENCE

Azure Cloud Engineer, Microsoft Azure Project (Global Capacity Team), LTIMindtree Feb 2025 to Jul 2026

Hyderabad, India

- Supported Azure Compute capacity operations for Premium (S500) enterprise customers on Microsoft's Global Capacity Team, handling quota requests, allocation failure troubleshooting, and incident resolution within defined SLAs across rotational shifts.
- Created and managed RDQs (quota requests) and ICMs (incident cases), applying correct severity classification based on issue type and business impact.
- Troubleshot VM deployment and scale up failures caused by out of capacity conditions, Offer, Region, SKU, and Zone restrictions, and Availability Set or Proximity Placement Group (PPG) pinning constraints.
- Performed root cause analysis using internal tooling (Jarvis) to review subscription quota, offer restrictions, and logical to physical zone mapping, and by analyzing VMApiQosEvents and Compute Allocation Activity logs.
- Worked across Resource Groups, VM Scale Sets, Availability Sets, and Availability Zones to resolve cluster capacity constraints, and supported cluster management operations including ECR, Defrag, and OFR.

Recognition: iWin Spot Award, Super Crew (LTIMindtree, Jan 2026), for consistently going above and beyond in incident and capacity operations.

Website & App Operations Intern, Mamaearth (Honasa Consumer Ltd.)

Aug 2024 to Jan 2025

Hyderabad, India

- Independently contributed to the development and optimization of the company's homepage and mobile app experience, improving usability and site performance.
- Managed day to day website and app operations to enhance user experience, engagement, and conversion.
- Leveraged analytics and CRM platforms, including Power BI, Google Analytics (GA4), Firebase, AppsFlyer, and MoEngage, to monitor performance and generate actionable insights.
- Worked across Magento, Shopify, and Strapi to support content and ecommerce operations.
- Partnered with cross functional teams (engineering, marketing, and design) to support project execution and drive operational improvements.

EDUCATION

Bachelor of Technology, Computer Science and Engineering

Lovely Professional University | CGPA: 7.78

CERTIFICATIONS

- Microsoft Azure Fundamentals
- Meta, Introduction to Front End Development
- Simplilearn, Innovating with Google Cloud AI

Additional Training (exposure, not hands-on job work): Networking Fundamentals, Active Directory, Group Policy, VMware Concepts, ITIL Fundamentals.
